

THE GRIT

Sandia Heights Homeowners Association

Volume 89

November 1989

Number 4

President Announces Homeowners Association Executive Assistant

I am pleased to announce the selection of SHERRY LOMBANA as the newly retained Executive Assistant to the Sandia Heights Homeowners Association. The new office number for Sherry is 275-9112, and all homeowners (along with others conducting business with SHHA) are invited to direct their inquiries or comments to Sherry at this number.

This Executive Assistant position grew out of the Board's experiences during the current transitional period in which the Homeowners Association has assumed new roles, added duties, and increased responsibilities formerly fulfilled by the Tram Company (ARCO). Sherry's availability to serve you now will provide for immediate response to your interests and concerns. We envision a more responsive and active Association serving the residents of Sandia Heights with Sherry's able input and participation.

Sherry has a degree in advertising/journalism from the University of Oklahoma and 18 years of professional experience in the areas of public

relations, marketing, copy-writing, and print production. Her background also includes considerable experience in working with engineering, industrial, and marketing groups.

Sherry is a native New Mexican who returned to Albuquerque three years ago and established her own company, Lombana and Associates. Since 1986, her firm has provided writing, public relations, and marketing services to a wide range of clients, including government agencies, law firms, nonprofit organizations, mortgage companies, advertising agencies, and computer and consulting firms. She now will add "homeowner associations" to that impressive list.

The Board chose Sherry as the new Administrative Assistant over a number of very qualified applicants. We are confident that Sherry's special combination of warmth and professionalism will increase and expand the services and benefits offered Association members and all residents of Sandia Heights.

Ed Bates, SHHA President

Christmas Lights Contest

There will be a Christmas Lights Contest again this year for SHHA members, with first and second place winners receiving some nice prizes. Judging of the lights will take place on December 24th. There is no fee to enter. We do request that if you are interested in entering the competition, you contact us so your home lighting decorations will not be missed.

Also, we are very appreciative of the calls we have received in reference to the condition of the grass in the park this summer. We thank you for your concern, and we believe the situation was taken care of by the landscape company.

Thanks also are extended to Robert and Carol Brown and family for donating a tether ball to the park sports equipment.

Mike and Ellen Cox, 293-7417

SHHA Meetings

Your Homeowners Association meets the second Wednesday of each month at 7:30 p.m. at the Paseo del Norte fire station. Everyone is welcome - please plan on attending a meeting. If you have any suggestions or complaints, please call the President, Ed Bates at 299-2155 and ask to be put on the agenda, or just come and meet your SHHA Board of Directors.

Road Matters

PASEO DEL NORTE/TRAMWAY BOULEVARD INTERSECTION - The latest information regarding the construction of the intersection was that the contract would be awarded in September. It is a 270 day contract. Questions should be directed to Mr. Bolesio Romero at 843-6120.

TRAMWAY BOULEVARD - The State Highway Department announced that road improvements will be made to Tramway Boulevard between the 3-way stop and I-25. Completion date is May of 1990. Questions should be directed to Mr. Paul Harris at 293-3893.

Recycling Options and Survey

The Board of Directors of the Sandia Heights Homeowners Association has had several discussions on the subject of recycling waste items. In July, the Board heard from Mr. Gene Crabtree, the Executive Director of Recycle New Mexico and Mr. Bill Terry, General Manager of Waste Management Company. From these gentlemen it was learned that there are several options available to the local homeowners on the subject of recycling waste materials. The options range from having curbside pickup of recycling materials to a central depository for segregated waste. The costs associated with recycling vary widely, also. Each homeowner likely would be charged for periodic curbside pickup, while the central depository idea might generate modest amounts for a neighborhood group or for the Sandia Heights Homeowners Association as a whole.

At the August meeting, the Board decided to prepare an article for the GRIT and to conduct a survey of the homeowners. It was felt that many of the SHHA members likely were doing their own recycling by taking their papers to any

one of several service club boxes along the road and their aluminum cans, glass and plastic containers to their churches, Boy Scouts, or favorite charity.

In our American disposable life style, we are creating mountains of waste. Reports say that the amount is 150 million tons per year. We know also that much of the United States is filling up its landfills and that some Eastern states would like to send their waste material to New Mexico for disposal. The Board of Directors feels that they would prefer to have a voluntary program as opposed to mandatory programs that many states have felt required to adopt. Waste from Albuquerque and its metropolitan area will likely be shipped to the Rio Puerco in a two-step transportation program starting next year, as the landfill south of town is nearly full. Therefore, the need is urgent and the time to do something is now.

The Board of Directors will be conducting a telephone survey of the homeowners on recycling waste materials. If and when you are called, please respond to the questions asked!

Bill Heflin, 291-0489

Gritty Letters

Letters to THE GRIT should be original, brief, and concern current topics in the news. Letters must include full name and signature of the author, address, and telephone number (though these can be omitted from the printed copy, if requested). Editors reserve the right to edit or condense any letter. Address letters to: Letters - THE GRIT, P.O. Box 20021, Albuquerque, NM 87154-0021.

First and foremost, many thanks for the GRIT. We just wanted to let you know about a couple of needed changes - or additions that should be made on the map (that was printed in the August GRIT and in the SHHA directory). The areas to which I am referring are between San Rafael and Tramway Terrace Loop on both sides of Tramway Boulevard. The map shows Quail Run Drive ending at Quail Run Loop. It now extends to a

quadrangle with Quail Run Drive entering at the southwest corner and exiting at the northeast corner onto Tramway Terrace Loop. All the houses on that quadrangle are in the 2000's (2001 to 2036) and they've only been here about 1-1/2 years or less. The same is true on the west side of Tramway to the south of Tramway Court.

*Louise and Alex Milyko
2024 Quail Run Drive*

NEIGHBORHOOD COFFEES

Mark your calendars now and plan to attend the coffees, meet new neighbors, and see old friends. Please call your hostess so that she can plan accordingly!

Call Jane Stabler at 298-8525 if you would like to have a coffee or if you need a ride.

Christmas Coffee

More News from the Ranger's Desk

This year on September 3rd, we marked the 25th anniversary of the establishment of the National Wilderness Preservation System. This is a good time to take a few minutes to gaze at the Sandia Mountains and realize what a treasure you have right at your doorstep. Few major urban areas in the world can boast such an attraction!

PLANNING NEW TRAIL

Construction of a new trail was begun early in October. The trail will connect the new Faulty extension trail above Doc Long Picnic Ground with the Tree Springs Trail.

TRAILHEAD PORTAL SIGNS

We have begun an ambitious series of signing projects that will improve the information system at our more heavily used trailheads. The first to go in was at the La Luz Train in Juan Tabo. Each portal will boast a "YOU ARE HERE" sign with some information about the Sandia Mountain Wilderness. Our trail crew has done a very professional job of putting these packages together. I welcome your comments about the design.

New Editor for "The Grit"

Your GRIT editor, Judy Harris, bids you a fond farewell. Thanks for all your help in the past. Please note that the new SHHA Executive Assistant, Sherry Lombana, will be handling the GRIT publication, starting with the February issue. Please help her by adhering to deadlines, putting ads in writing, and keeping your own ad current. Her phone number is 275-9112.

[The Directors of the Sandia Heights Homeowners Association would like to publicly express their sincere appreciation for the diligent effort and the resulting wonderful job Judy has done as editor of The GRIT over the past several years.]

Deadline for the February "Grit"

The deadline for submitting ads or articles for the February GRIT is Monday, January 15, 1990. Please submit all materials to Sherry Lombana, 14201 Encantado NE, Albuquerque, NM 87123, 275-9112.

"Grit" Circulation

This issue of *The Grit* was mailed to 1092 members of the Sandia Heights Homeowners Association.

HOLIDAY BAZAAR!

Paseo del Norte Fire Station
November 19th
Sunday
11 a.m. till 4 p.m.

If you are interested in participating in the Annual Sandia Heights Holiday Bazaar, please call Rab Freeman at 296-2977 or Leona Rubin at 275-8201. There will be well-known artists and many craftsmen - come and join us. Coffee and refreshments will be served. A percentage of the proceeds will benefit our volunteer fire department. Come visit with your friends and neighbors and get a head start on your holiday shopping.

TREES FOR OUR GRASSLAND Part II

When we add trees to our landscape here in the Sandias, suitability in appearance, water and soil requirements should be considered carefully. Ask for trees at the nursery that can withstand drought well once they are established and you'll be a long way ahead toward a successful garden.

Near the top of the list of drought resistant small trees that can be grown successfully here is our graceful New Mexico olive (*Forestiera neomexicana*) which is slow growing to 12 feet or more. Once established, it will survive very dry conditions. It is deciduous with small privet-like leaves that turn gold in the fall.

The desert willow (*chilopsis linearis*) is successful in the most discouraging conditions. Some of them grow along I-25 near Bernalillo in what appears to be pure gravel with no apparent source of water. Each spring, they put out their pale pink blossoms in a bright show. Not willows at all, they belong to the bignonia family, related to the catalpa whose flowers the desert willow's vaguely resembles. When it has really warmed up in late April, its willow-like leaves come out on pendulous branches that look somewhat like those of a weeping willow. In June and July, it is covered with graceful 1-1/2 inch flowers, followed by long "string bean" pods. Last year with the heavy rains, my tree had some flowers 'till frost. Research and selective cultivation of this tree at NMSU and in Texas have produced several lovely cultivars, including a lavender pink named "Barranca," the ruby red

THE VIEW FROM JACKRABBIT HILL

"Regal," and the pure white "Hope" (still scarce in the nurseries). Though normally a small, shrubby tree in the wild, with additional water it can get quite large. My three year old tree is 12 feet tall now (with only natural rainfall after the first year) and I have seen an example in an old Albuquerque garden that must have been 35 feet tall. Last year, Sunset magazine reported a new Russian cross of this tree with the southeastern catalpa that sounds promising for our area. It is now available in the nurseries and looks like it will be a more formal looking, denser-leaved tree than the parent desert willow.

Another pretty native bloomer is the New Mexico locust (*robinia neomexicana*). This is usually a very spiny customer that spreads by suckers to form dense clumps. The long sprays of soft pink, pea-like flowers in early summer make this small tree a likely candidate for an informal spot in the garden or as a barrier planting.

This year I've tried the false indigo (*amorpha fruticosa*), a small tree (10 to

15 feet) that grows in loose clumps on stream banks all over our state. Its leaves somewhat resemble a locust's and, in summer, it produces tight bunches of dark purple flowers. It appears to be completely happy even in the drought and turns a rich yellow in the fall.

A favorite of many people for its wonderful deep red fall color is the smooth sumac (*rhus glabra*) that you will see on the drive to Sandia Crest. It grows all over our range and can be a small shrub 3 feet or a tree 20 feet tall. It is drought tolerant and makes a handsome contrast to grey sages or pines. There are several cultivars of this plant in the nurseries that will probably do well here.

Others to consider are some of the new smaller varieties of ash trees, vitex with its lovely blue flowers, the mountain ash, hop tree, the smoke tree (*Cotinus coggvria*), Chinese pistache, hawthorn, Chinese elm (not the Siberian pest), and mountain mahogany pruned to tree form.

I KNOW A LITTLE-KNOWN
ALASKA CRUISE
THAT'S...WELL, A LITTLE
UNUSUAL...

I see a lot of cruises cross my desk,
but this one is an eye-opener.
They've got a 14-day cultural cruise
for about what most lines charge for
seven!

You get to see the real Alaska with the people who know it best -- Alaska experts who will explain its art, history, culture & wildlife. You will visit more ports of call than any other cruise line. With more time ashore to experience Alaska firsthand.

...On board, a string quartet accompanies the fine cuisine...there's dancing, a fitness center, and the largest shipboard library afloat. You'll love it!

IN ADDITION TO ALL THIS --

you can earn up to \$400 discounts (per person). I am planning two cruise nights in November so that you can see our beautiful video on the Grandeur of Alaska.

Tax Tips for 1989

FROM THE IRS

Fast Refund. If you expect a tax refund for 1989, instead of mailing your return to IRS, you may want to have it filed electronically. When you file electronically, you receive your refund in about 3 weeks, or in about 2 weeks if you have it deposited directly into your savings or checking account. For a charge, many professional tax preparers offer electronic filing in addition to their return preparation services. If you prepare your own return, a preparer or transmitter in your area can file your return electronically for you. For a list of those in your area who can file your return electronically for you, call IRS toll-free at 1-800-424-1040 and ask for the Electronic Filing Office.

Refund Checks. Be sure to cash your refund check soon after you receive it. Checks not cashed within 12 months of the date of the check will be cancelled.

Deduction for Exemptions. The deduction for each exemption -- for you, your spouse, and dependents -- has increased to \$2,000. For 1989, you may not claim an exemption for your child who was a full-time student and was age 24 or older at the end of the year, unless the child's gross income was less than \$2,000. But the child may claim an exemption on his or her own return.

Social Security Numbers for Dependents Age 2 or Older. If you claim any person age 2 or older as a dependent, show that person's social security number on your return.

Child and Dependent Care Expenses. You may not claim the credit for child and dependent care expenses or exclude employer-provided dependent care benefits from your income unless you

Continued on page 14

Tax Tips For 1989

Continued from page 13

report the new information about the care provider on Form 2441. You may not claim a credit for payments made for the care of a dependent child who was age 13 or older unless the child was disabled. The age limit was 15 or older last year.

Supplemental Medicare Premium. If you were eligible for Medicare Part A benefits for more than 6 full months during the year, you may owe the new supplemental Medicare premium. The premium will help pay the cost of the new Medicare catastrophic and prescription drug coverage.

Children Under 14 May Not Have To File. If your child was under age 14 and had income **only** from interest and dividends that totaled less than \$5,000, you may be able to elect to report your child's income on your return. If you do, your child will not have to file a return.

Employee Business Expenses. For most people, employee business expenses are deductible only as an itemized deduction on **Schedule A**, line 20. If you are reimbursed for your employee expenses under an arrangement with your employer and **both** of the conditions listed below apply, amounts you received under the arrangement should not have been reported to you as income on your W-2.

- The arrangement requires you to substantiate your expenses to your employer, AND

- The arrangement requires you to return (and you do return) any amount in excess of your substantiated expenses covered under the arrangement.

If the arrangement does **not** meet both of the above conditions, amounts you received under the arrangement should have been reported to you as wages on your Form W-2.

LOOKING AHEAD TO 1990

Exclusion of Interest From U.S. Savings Bonds. If you cash Series EE savings bonds issued after 1989, you may be able to exclude from income part or all of the interest on those bonds. But you must have paid higher education expenses during the year for you, your spouse, or your dependent. Get **Pub. 550, Investment Income and Expenses**, for details.
